

## como ganhar na bantu bet

Make no mistake when the bubble period is reached in a tournament, things change. It really is the do-or-die time. It is fairly common to find players changing their style dependent upon the stack in front of them.

>

Playing to win: This player's intention is to take no prisoners. They are playing to win the tournament and have every intention of using this period to their advantage in order to accumulate more chips.

>

There is no easy way to put it. Being knocked out on the bubble hurts, but it is important not to dwell negatively on the fact for too long. Remember you got to within one of taking something home. With positive analysis of mistakes made during play, you can determine how plays could have been made differently.

Don't just assess your bad moves, look closely at the good ones. By combining this knowledge and putting it into action in future tournaments the buzz of the bubble will be yours in a very positive way!
