Mario is an emblematic character for gaming all arou

nd the world. The little Italian character dressed in a red overall has one of t

he longest gaming stories in the world, which started in a short platformer adve

nture in a 2D set, and now there are 3D Mario games that boys still love to play

in 2024, and even racing games in specific car games that you will be able to f

ind right here on our website, where today we are publishing the Mario games onl

ine category, in which we stacked all kinds of Mario challenges that you can pla

y for free, and starting from today even try out on your phones and tablets wher

ever you are.

The Mario scenes are going to be incredible, because even though its fi

rst original game was in the 1990s, the classic Mario game is still popular, and

you can see that the platformer adventure has new remakes that boys still love

to play, and try to help Mario finish his mission and gain a lot of points while

they try to save the princess at the end of each and every one of the adventure

s.

Let's start the first adventure game with Mario and his friends!

Mario classic

As we said, the original story of Mario, the Italian plumber was based

on a platformer story. Mario is an ordinary plumber who is dressed for the job,

he always has on a red overall, a cap, and even has a little mustache that can b

e seen under his big nose. Mario falls in love with a princess dressed in a pink

dress, and from 1990 when the first Mario game could be played on a Nintendo co

nsole to 2024, Mario is still trying to save the princess from dinosaurs, evil w

eeds, dragons, and you will be part of the story through all the Mario adventure

challenges that we are going to post, just like inside the adventure games for

boys that we already posted for you guys to play for free online.
