<p></p><p>The world has changed drastically since then, and no

w Flash games are a dying breed - not least because most modern browsers no long

er support them. It's not been available on mobile for eight years since And

roid dropped it in its 4.1 release.</p>

<p>But not all hope is lost. Preservation efforts for Flash games are well

underway, and web gaming platform Poki is significantly stepping up its own eff

orts by partnering with Nitrome, now a respected mobile studio, and adding 100 o

f the developer's old Flash titles to the platform.</p>

<p>To find out more about why it's preserving these games, we spoke wi

th Poki co-founder Michiel van Amerongen and other members of the team - as well

as Nitrome's Mat Annal - about the technical challenges of saving these gam

es and why it's good business for everyone involved.</p>

<p>PocketGamer.biz: We last spoke with you around four years ago following

the launch of Color Switch on your platform. How has Poki grown and changed ove

r those four years?</p>

<p>Michiel van Amerongen: 2012 - 2024 was a challenging time for web games

. The app stores had exploded, Flash was on its way out, but its successor HTML5

was still a niche game development technology.</p>
