Alternatively, use the keyboard shortcuts `Ctrl + Shift + I` for Windows or Linux and `Cmd + Option + I` for macOS users. Or, right-click on the web page and choose Inspect to access the Developer tools panel. Once the Elements tab appears on your browser window, you can edit the page's source code.

The first method to open chrome dev tools is by directly installing Google Chrome on your local system. Then, press right-click and select Inspect from the options. This will open the tool panel. Alternatively, you can also press the shortcut key `Ctrl + Shift + C` on Windows OS or `Command + Shift + C` on a Mac OS.
