The AK117 has been in COD Mobile since its launch and remains a top-tier AR choice. It has a high rate of fire and excellent damage over range. The AK117 can take out enemies in just 3-4 shots. It does have some recoil, but the proper attachments can control this.

AK117 is a high fire rate assault rifle with comparatively lower damage and its TTK drops significantly along with the range. This means AK117 is only effective in close to mid-range without any range boost attachment.
