About Escape Games

Here you will have to solve various riddles,

puzzles, charades, think through logical chains that connect completely

random, first

glance, objects, and much more in the shortest or limited time.

And all this in

order to escape from a closed space: a room, a house, a Bank, a castle,

a factory,

and many others. It is important to remember that the game also has some risks for the

player: eating together that others

are not - it can increase the risk of infection.

It is important to activate and not to harm the environment.

With a character like this, his brutality is

scary because it seemingly has no logic to it. He is a force devoid of humanity

and with unbelievable ability. Michael operates as a force of nature,

and this makes him devastating because he faces human characters.

Michael Myers is a character who is terrifying because of his ability to kill

with a single knife stroke. He is a force of nature, and this makes him

devastating because he faces human characters.
