ite the difference! So why does a minecraft day go by so much faster than a real life? It's not just the difference in time, but the way we experience it. In a real life, you have to deal with the pressures of work, family, and social obligations. In a minecraft world, you have the freedom to explore, build, and survive at your own pace. This is why many players find themselves spending hours in the game, completely immersed in the virtual world.

To play COD: Warzone with high-resolution textures and smooth gameplay, you will need a higher end gaming PC. Here are the competitive specs to run at a high FPS for use with a high refresh monitor: CPU: Intel i7 or AMD Ryzen 7. RAM: 16GB RAM.
