The simple answer is no, as you probabl

y expected. A very few games (like Half Life Alyx) have been modded

to allow play without a headset but they are clunky, rare and still require a c

apable PC, which it doesn't sound like you have. If you desperately need VRC

hat in your life, you'll need a headset.

Anyway i can play VR games without a headset? - M

Some VR games allow players to play witho

ut a VR headset, for instance, Star Trek Bridge Crew or Rec Room but most other

VR games will not allow this, for instance, Job Simulator or Beat Saber because

they would basically have to make a 2nd game because of the control integration

(keyboards, mice).
