Most PCs should be able to run Call of Duty: Warzone without an issue, but there are some easy ways to increase your frame rate by tinkering with its settings menu.

[Call of Duty: Warzone System Requirements - Can I Run It?](#)

| Minimum | Competitive |
|--|--|
| CPU Intel Core i3-4340 or AMD FX-6300 | CPU Intel i7-8700K or AMD Ryzen 1800X |
| RAM 8GB | RAM 16GB |
| HDD 175GB HD space | HDD 175GB HD space |
